

## BARB WIRE REEL.

One Easily Made That Will Do Effective Service.

Here is a barb wire reel that one can wind barb wire on instead of an old barrel, which is slow work. We present a little drawing of one that can be easily made by an ingenious farmer. It is mounted on wheels, and

Have the Weight Near the Wheels.

can be drawn along by a man, while a boy steadies the handle to keep the wire from unwinding too rapidly and kinking. For winding up wire that is taken off of a fence, the machine can either be pushed or pulled, going just fast enough to keep up with the wire as it is being wound on the reel. A little rack like this, says The Farmer, would be of considerable value to any one who has any amount of barb wire fencing to wind.

## INACCURATE SEED TESTING.

What the Germination May and May Not Show.

It is not at all certain that seed when sown in the open field will show the same amount of digestibility as when sown in seed testing boxes or between plates in the house and under ideal conditions of warmth and moisture. A great many experiments have been made to show what the germinating power of various seeds is, and it has been figured out that the results would be the same in the field as in the seed testers. It is interesting, therefore, to note that a comparison of results do not show the same percentage of seed germinating under the two conditions.

In some comparative tests reported 31 samples of seed of oats and wheat were tested in regular seed testers. The lowest germination was 49 per cent. and the highest 99 per cent. A like number of samples of the same seed were planted in the open ground at the same time, the samples being the same grain as those planted in the testers. One of the oat samples that had shown a germination of 94 per cent. when planted in the tester gave only 54 per cent. of germination when planted in the open field. Another lot gave in the tester a germination of 81 per cent., yet when sown in the open field it gave only 13 per cent. This was a most remarkable decline.

One of the samples of wheat seed gave 63 per cent. of germination when sown in the seed tester, but when sown in the field gave only 8 per cent. of germination. The poorest sample for field work gave 62 per cent. of germination when sown in the seed tester, but in the field gave only 4 per cent. of germination. This illustrates the fact that something besides germination tests need be looked for when figuring on what seed will do. Conditions in the field are much harder than in a germinating plate.

An investigation of this seed showed that it had been produced under bad conditions and probably lacked vitality. It had been injuriously affected by early fall frosts. Most of it had enough vitality to enable it to sprout under the perfectly favorable conditions found in a sprouting tray, but had not enough vitality to enable it to sprout when buried in the ground where the moisture supply would be too great or too little, and where the air would not have free access to the grain.

The germination tests may still be considered valuable, says Farmers' Review, but they are by no means conclusive, so long as they are conducted under ideal conditions. It is only rare that conditions in the open ground are ideal for the germination of seed.

## FARM NOTES.

It is comfortable to lean upon a fat job.

Two family needs—good bread and good breeding.

Don't try to grind alfalfa meal with low power.

Yes, without doubt, the limit and sulphur wash is a good fungicide.

If the spring is late and wet many a farmer will be tempted to go into his fields and plow before the land is in proper condition. But plowing that merely turns a wet slice of soil upside down is a damage to the land.

## Breeding for Layers.

Don't take eggs indiscriminately from the entire flock from which to hatch the season's chicks. If your object is to raise pullets that will lay next winter, select your best layers of the past winter and place them in a pen and yard by themselves, with a male that is well developed and vigorous for a mate. Pullets from such a pen will be twice as profitable next season as those produced from eggs taken at random from a farm flock.

**Health and the Garden.**  
The farmer who has a good garden has a healthy family as a rule. We remember being at a farmers' institute a few years ago when an aged physician was asked to make a few remarks. The first thing he said was: "I noticed all my life that I never got much money out of the family which was fed on fruit and vegetables."

Do you lift or do you lean?  
Don't stop for long stories or yet for short tales when the trees in your orchard are covered with apples.

## FANNING MILLS ON FARM.

Prof. Thomas Shaw Declares Every Farmer Should Have One.

The natural thought would be that every farmer would look upon a fanning mill as an indispensable adjunct to his farming. Nevertheless, the fact remains that on the majority of the grain-growing farms of the Northwest there are no fanning mills. This means that before all the farms are thus equipped, from 200,000 to 300,000 fanning mills would have to be sold in that territory.

To a farmer living East it seems incomprehensible that any farmer should think of growing crops without a fanning mill. The explanation is found in the methods of farming that have been followed. The average Northwestern farmer settled on virgin lands, where food seeds had never grown. The lands were so rich that he was able to grow crops in succession for many years without thinking much about weeds. For the time being, he found it cheaper to send his grain from the threshing machine to the elevator than to build granaries in which to store it and to buy a fanning mill and clean the grain before selling it.

It also left on his hand a large amount of screenings, which he had no stock to feed to, and which would have been a drug on the market. Seed wheat was bought in many instances, under the idea that a change was good. In this way, four seeds multiplied again. This is largely the explanation of the disastrous condition of so many of the farms of the Northwest at the present time, because of the extent to which they are infested with noxious weeds.

The times have changed. The system must change. It has been discovered that home-grown seed is more valuable than what has been purchased, and that seed carefully cleaned and graded is much more valuable than seed brought in from abroad. To have such seed it is indispensable that every farmer shall have a fanning mill and he ought to have the best that can be got. Thus equipped, the character of his seed should improve every year, and this should mean a corresponding increase in his crops.

The time has also come when it is imperative to sow clean seed. The only way to insure this is for every farmer to clean his own seed, which means that he must have a fanning mill. The farmers now are growing grain of various kinds and it is equally important that the seed of these shall be well cleaned, as that the seed of wheat shall be so prepared. Live stock is also being introduced more or less on many farms. This means that the screenings taken from the wheat or other grains sold can be turned to excellent account in feeding one or the other of the various kinds of live stock kept. The screenings sent to the elevators are given away. The farmer is docked so much for screenings and nothing is allowed him for the dockage.

When the importance of the fanning mill is considered to the Northwest farmer, it would seem that it is not putting it too strongly to say that the man who sells fanning mills is engaged in a beneficent work, even though when thus engaged he has no other thought than that of earning a commission on his sales. The cost is so small that a fanning mill is within the reach of every farmer.—Orange Judd Farmer.

## WASH TANK AND TABLE.

Most Convenient for Preparing Vegetables for Market.

A vegetable gardener who prepares a good many vegetables for market by first washing and then drying has devised the plan illustrated for removing the soil and then draining. The

Vegetable Washer.

tank is little more than a water-tight box with a plug in the bottom for drainage. The shelf, says Prairie Farmer, is attached to the box with a hinge, likewise the legs so that folding in smaller space is possible.

## Pig Likes Comfort.

No domesticated animal loves comfort more than the pig. Cold winds and storms are damaging, and cost a good deal of feed. Call out a lot of pigs from comfortable shelter, and throw them some corn on the ear, and see how quickly they will carry it to the shelter to eat. It pays well to provide shelter from heavy winds and extreme cold, though fresh air and dry beds to sleep in are a necessity if pigs are to thrive and grow fat. Shelter need not be costly; in fact there is a great deal of money wasted in putting up expensive buildings, but it should be warm and at the same time well ventilated.

## Movable Frames.

The chief excellence of the modern hives is in the movable frames which are fitted with a groove, so that when the hive is opened the frames containing the combs can easily be removed, the combs examined, and changed in any way the beekeeper pleases and returned quickly.

## Don't Set Chilled Eggs.

To prepare for successful hatching, gather eggs often in cold weather, to avoid chilling. Protect them from excess of heat and cold. Clean dirty eggs carefully with a little soda, tepid water and soft cloth. Turn daily and select those of smooth, even size and color, with good shells.

## Care of Little Chicks.

We saved 30 or 40 chicks in each of our last two hatches, by putting in a funnel wrung from hot water as soon as chicks showed signs of being too dry. This was removed at intervals, as the case required.

## GRIT SAVED HIS LEG.

Ranchman Rode Far After Most Serious Injury.

Jack Farland, a ranchman living at the base of Pike's Peak, and whose post office is Midland, in this county, yesterday suffered a broken leg by being caught between a horse which he was riding and a timber wagon which he was attempting to pass while en route to this city, says the Cripple Creek Times. Farland displayed the greatest of pluck by riding on to Victor after suffering the injury, although he said upon arriving here that he felt several times that he must give up. Knowing, however, what difficulty would attend any attempt to dismount, and how well nigh impossible it would be for him to remount in the event that he succeeded in getting safely off his horse, the ranchman gritted his teeth and kept on. After having his leg set by a surgeon of this city, Farland collapsed and it was late in the afternoon before he was able to proceed homeward in a carriage, the accident having happened early in the morning.

## SARSAPARILLA TIME.

Make Your Own Sarsaparilla or Spring Blood Medicine.

Mix one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Shake well in a bottle and take one teaspoonful after meals and again at bedtime. Any good druggist can supply these ingredients. This is said to be a splendid Spring Blood Tonic and system renovator because of its gentle action in restoring the kidneys to normal activity, forcing them to filter from the blood all impure matter and acids, destroying micro-organisms which produce ill health and sour blood.

Everyone should take something to cleanse the blood at this time of year, and the above simple prescription is the most highly indorsed of the hundreds of home remedies generally used. Mix this yourself, then you will know what you are taking.

## WOMAN HAS FINE RECORD.

Keeper of Lighthouse, She Has Saved Eighteen Lives.

Ida Lewis recently celebrated her fiftieth year as keeper of the Lime Island lighthouse in the harbor of Newport, R. I. As a girl and woman Ida Lewis has lived a remarkable life. Her bravery and skill in handling a boat are well known and her fame is secure as the great woman life saver in the world, for she has the credit of having saved no less than 18 lives, most of her rescues having been effected in the face of extreme danger and in winter. As keeper of the Lime Island lighthouse, to which post she was appointed in recognition of her bravery and record as a life saver on the death of her father, Miss Lewis has shown herself as careful and efficient as a man could be. She is one of the few women in such a position.

## Sheep Raising in Australia.

The greatest industry of Australia is sheep raising, mainly for the sake of the wool, but also in part, of course, for the meat. Australia now ranks second among the great sheep-raising countries, Argentina being first with 92,000,000 sheep, Australia second with 72,000,000, and Russia third with 70,000,000. Only a few years ago Australia was first, possessing no less than 106,260,000 head of sheep. That was in 1891. Prolonged droughts were the cause of the destruction of many millions of Australian sheep, but since 1902 there has been an annual gain. Yet these sheep were not indigenous to Australia. They were first introduced in 1797, being of the Spanish merino species.

## Carnegie Fund Participants.

The report of the Carnegie fund for the advancement of teaching shows that already 389 institutions have applied for a share of the proceeds, and that of these 52 have been placed on the accepted list, having met the conditions in regard to undenominationalism and academic standards. In the accepted institutions 45 professors have received more than \$69,000 and the widows of some professors have been assisted. One-half the accepted colleges are in New England, New York and Pennsylvania, and with one exception, the entire list lies in the northern belt of states.

## Could Not Afford Title.

Many times did the German emperor press the title of prince upon Herr Von Bulow before the latter would accept. The statesman wanted the title, but could not afford to live up to it. Of this the kaiser knew nothing, of course. At length, about 18 months ago, a relative of Von Bulow died, leaving him \$1,350,000. A few days later he showed the kaiser a legal notification of his good fortune. "The monarch granted. 'So that was the reason—my prince,' he said, laying stress on the title. 'Why did you not say so before?'"

## FIND OUT

The Kind of Food That Will Keep You Well.

The true way is to find out what is best to eat and drink, and then cultivate a taste for those things instead of poisoning ourselves with improper, indigestible food, etc.

A conservative Mass. woman writes: "I have used Grape-Nuts 5 years for the young and for the aged; in sickness and in health; at first following directions carefully, later in a variety of ways as my taste and judgment suggested."

"But its most special, personal benefit has been a substitute for meat, and served dry with cream when rheumatic troubles made it important for me to give up the 'coffee habit.'"

"Served in this way with the addition of a cup of hot water and a little fruit it has been used at my morning meal for six months, during which time my health has much improved, nerves have grown steadier, and a gradual decrease in my comfort." Name given by Postum Cereal Co., Ltd., Battle Creek, Mich. Read the little book, "The Road to Wellville," a picnic. "There's a Reason."

## CARE OF THE SICK ROOM.

Above All Things the Walls Should Be Kept Dry.

When the bedroom becomes a sick room there is an added reason why extreme precautions should be used to keep the room in a thoroughly sanitary condition.

Above all things, the bedroom should never be damp. It should be nice and dry, always warm and comfortable in winter, cool and airy in summer, and bright and sunny some parts of the day.

If there is any suspicion of dampness in a bedroom it is probably due, if there is wallpaper on the wall, to the absorption of water by the paper which frequently acts as a blotting paper and holds quantities of water in it.

The use of wallpaper on walls is to be deplored; it means disease, ill health and unhappiness. It is frequently the cause of lung trouble, not only because of its dampness but also because of its power to retain infection of many kinds.

The desired method of treating a bedroom wall is to tint it for the alabaster wall is a perfect wall. It never flakes off, chips or peels. It absorbs moisture and expels it. It opens the pores of the plaster and makes a room livable and breathable.

The floor in the bedroom should have light, cleanable, dainty rugs that can be easily shaken and a floor that is thoroughly oiled or varnished, that will not absorb moisture. The cracks in the floor should be thoroughly filled and covered. Woodwork in the bedroom should be attended to carefully, window sills should be thoroughly varnished or waxed, and the window casings kept in perfect order. The doors should be wiped off frequently as also should be all the standing woodwork in the bedroom, as the presence of dust on woodwork is a menace to health as well as an evidence of poor housekeeping.

## Day of Guillotine Ended.

Since the prison of La Rochette, where the French guillotine used to be kept, has been pulled down, the machine of death has been kept in a shed belonging to the state executioner. Since there is no place in Paris where it seems desirable to put up the guillotine, no more executions take place there. The president of the republic gets around the difficulty by commuting the death sentence to imprisonment.

## SLEEP BROKEN BY ITCHING.

Eczema Covered Whole Body for a Year—No Relief Until Cuticura Remedies Prove a Success.

"For a year I have had what they call eczema. I had an itching all over my body, and when I would retire for the night it would keep me awake half the night, and the more I would scratch, the more it would itch. I tried all kinds of remedies, but could get no relief."

"I used one cake of Cuticura Soap, one box of Cuticura, and two vials of Cuticura Resolvent Pills, which cost me a dollar and twenty-five cents in all, and am very glad I tried them, for I was completely cured. Walter W. Paglusich, 207 N. Robey St., Chicago, Ill., Oct. 8 and 16, 1906."

## Bid for Immigration.

New South Wales offers \$30 a head toward the passage money of approved agriculturists and domestic servants to that colony, and \$20 a head for other desirable immigrants.

With a smooth iron and Defiance Starch, you can launder your shirt-waist just as well at home as the steam laundry can; it will have the proper stiffness and finish, there will be less wear and tear of the goods, and it will be a positive pleasure to use a Starch that does not stick to the iron.

## Arizona's Copper Production.

In 1906 Arizona had the largest increase in production of copper of all the copper states. The output was 284,228,252 pounds, against 239,848,000 pounds in 1905.

# Home Treatment

Fruit acids will not stain goods dyed with PUTNAM FADELESS DYES, and the colors are bright and fast.

It's so much easier to tell a lie than it is to make people believe it.

Lewis' Single Binder costs more than other 5c cigars. Smokers know why. Your dealer or Lewis' Factory, Peoria, Ill.

Sweet are the thoughts that savor of content; a quiet mind is better than a crown.—Greene.

## It Cures While You Walk.

Allen's Foot-Ease is a certain cure for hot, sweating, callous, and swollen, aching feet. Sold by all druggists. Price 25c. Don't accept any substitute. Trial package FREE. Address Allen S. Olmsted, Le Roy, N. Y.

You must make it quite clear to your own mind which you are most bent upon, popularity or usefulness—else you may happen to miss both.—Stearns.

Garfield Tea—the indispensable laxative! Take it in the Spring; it purifies the blood, cleanses the system, eradicates disease. It is made wholly of simple herbs. Guaranteed under the Pure Food and Drug Law.

## Mrs. Partington Notices.

"It's a burning shame, but nevertheless a cold fact," said Mrs. Malaprop, in an interval of gossip at a card party the other evening. "My dear," said Mrs. Partington, from the other side of the table, "you seem to be getting your reservoirs mixed."

Sheer white goods, in fact, any fine wash goods when new, owe much of their attractiveness to the way they are laundered, this being done in a manner to enhance their textile beauty. Home laundering would be equally satisfactory if proper attention was given to starching, the first essential being good Starch, which has sufficient strength to stiffen, without thickening the goods. Try Defiance Starch and you will be pleasantly surprised at the improved appearance of your work.

## Disliked the Word "Death."

"Decease" is now a regular form of word for death. But it began as a gentle euphemism, "decease" (departure) seeming much less harsh to the Romans than "mors." All languages abound in euphemisms of the kind, which go back to a superstitious reluctance to mention death plainly, that gradually passed into a kindly desire to soften the idea. "Passed away," "departed," "gone," "expired" (breathe out), "no more," "deceased," and even "the late" are expressions of this nature. Most striking of all is the Roman euphemism for "he is dead"—"vixit," he has lived.

## Animals at Church.

Animals attend a church service in Peru. Pigs, goats, cattle and poultry are brought by their owners to be blessed on All Souls' day, and the church is turned into a domestic menagerie. The seats are removed, and the animals can trot about or lie down where they will. After the ceremony the livestock is formally handed over to the monks, who receive little other payment for their services.

**DODD'S KIDNEY PILLS**  
CURES RHEUMATISM, GRAVEL, BRUISES, BACKACHE, BRIGHT'S DISEASE, NEURALGIA, MIGRAINE, SCIATICA, CALCULI, GOUT, DIABETES, AND ALL AFFECTIONS OF THE URINARY TRACT. Sold only in bottles of 50 pills.

**HICK'S CAPUDINE CURES**  
It removes the cause, soothes the nerves and relieves the aches and pains. Feverishness, colds, and grippe. It cures all headaches and neuralgia also. No bad effects. 10c, 25c and 50c bottles. (Liquid.)

## WINE OF CARDUI

the well-known female tonic. For sale at all drug stores.

Joe Moorhead, of Archbald, I. T., writes: "My wife had suffered for years from female trouble. On your advice, I gave her the Cardui Home Treatment, and now she hardly suffers at all." Sold by druggists.

## WRITE US A LETTER

Write today for a free copy of valuable 64-page illustrated book for women. If you need Medical Advice, describe your symptoms, stating age, and reply will be sent in plain sealed envelope. Address: Ladies' Advisory Dept., The Chattanooga Medicine Co., Chattanooga, Tenn.

## Refugees on Mont Blanc.

Losing one's self on Mont Blanc will soon be counted among the vanished industries. In recent years a number of fine refuges have been built in various parts of the mountain by the Alpine clubs of England, France and other countries and by private individuals. These have made it almost impossible for a man having a bump of locality of average size to be lost, in spite of heavy mists and blinding snowstorms caused by sudden changes of temperature.

## Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free. Sold by Druggists. Price, 75c. per bottle.

Every great man is always being helped by everybody, for his gift is to get good out of all things and all persons.—Ruskin.

## Potato-Growing County.

During the month of February, 1,125,173 bushels of potatoes were shipped from Aroostook county, Maine, making a total crop of 1906 and up to February 28, 1907, of 7,678,873 bushels.

Garfield Tea, the Mild Laxative, is a pure, practical household remedy; good for young and old. To be taken for constipation, indigestion, sick-headache, colds and diseases arising from impure blood. It clears the complexion.

## Increase in Savings Deposits.

In 1906 the resources of the savings banks of the state of New York reached \$1,465,000,000, an increase of \$59,000,000 in only one year.

Lewis' Single Binder straight 5c. You pay 10c for cigars not so good. Your dealer or Lewis' Factory, Peoria, Ill.

Every truth that comes home to us is a moral call, bidding us rise to a new position.—Goethe.

Mrs. Winslow's Soothing Syrup. For children teething, soothes the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

He who is firm and resolute in his will molds the world to himself.—Goethe.

# Women Avoid Operations

When a woman suffering from female trouble is told that an operation is necessary, it, of course, frightens her.

The very thought of the hospital, the operating table and the knife strikes terror to her heart.

It is quite true that these troubles may result in a stage where an operation is the only resource, but a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after an operation has been decided upon as the only cure.

The strongest and most grateful statements possible to make come from women who by taking

## Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs, have escaped serious operations, as evidenced by Miss Rose Moore's case, of 307 W. 26th St., N. Y. She writes: "Dear Mrs. Pinkham:—Lydia E. Pinkham's Vegetable Compound has cured me of the very worst form of female trouble and I wish to express to you my deepest gratitude. I suffered intensely for two years so that I was unable to attend to my duties and was a burden to my family. I was doctored and doctored with only temporary relief and constantly objecting to an operation which I was advised to undergo. I decided to try Lydia E. Pinkham's Vegetable Compound; it cured me of the terrible trouble and I am now in better health than I have been for many years."

This and other such cases should encourage every woman to try Lydia E. Pinkham's Vegetable Compound before she submits to an operation.

**Mrs. Pinkham's Standing Invitation to Women**

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

MISS ROSE MOORE

## W. L. DOUGLAS

\$3.00 AND \$3.50 SHOES

W. L. DOUGLAS \$4.00 GILT EDGE SHOES CANNOT BE EQUALLED AT ANY PRICE.

SHOES FOR EVERYBODY AT ALL PRICES: Men's Shoes, \$5 to \$12.50. Boys' Shoes, \$3 to \$12.50. Women's Shoes, \$4 to \$12.50. Misses' & Children's Shoes, \$2.25 to \$12.50.

W. L. Douglas shoes are recognized by expert judges of footwear to be the best in style, fit and wear produced in this country. Each part of the shoe and every detail of the making is looked after and watched over by skilled shoemakers, without regard to time or cost. If I could take you into my large factories at Brockton, Mass., and show you how carefully W. L. Douglas shoes are made, you would then understand why they hold their shape, fit better, wear longer, and are of greater value than any other makes.

W. L. Douglas name and price is stamped on the bottom, which protects the wearer against high prices and inferior shoes. "Take No Substitute." Only by this plan shoe dealers everywhere. Full Color Picture sent absolutely free. Catalog mailed free. W. L. DOUGLAS, Brockton, Mass.

## LUNG TROUBLES PERMANENTLY CURED

cle, rest, sunbaths, ideal climate, at San Antonio Tent Colony. Home Comforts. Reasonable Rates. Literature free. DR. FARMER, San Antonio, Texas.

## SICK HEADACHE

Positively cured by these Little Pills. They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Headache, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, BILIOUSNESS, LIVER TROUBLE, etc. They regulate the Bowels. Purely Vegetable.

**CARTER'S LITTLE LIVER PILLS.** SMALL PILL. SMALL DOSE. SMALL PRICE. Genuine Must Bear Fac-Simile Signature.

**REFUSE SUBSTITUTES.**

**SECURITY GALL SALVE** POSITIVELY HEALS SORE SHOULDERS, SORE NECKS OR BACKS ON HORSES AND MULES. IT HEALS THEM ANYWAY IN HARNESS, UNDER SADDLE OR IN THE STABLE. FREE. Write name of your case, Put in 25c, 50c and \$1.00 Cash MONEY BACK IF IT FAILS. SECURITY REMEDY CO., 109 BARB WIRE BLDG., CHICAGO, ILL.

**WANTED—CLUB-OF-TEN ORGANIZERS.** We tell you how a Woman in Every Neighborhood may Earn Home Beautifully, FREE OF COST. Drop us a postal asking for our plan. BUSHWAY FLAVORING EXTRACT CO., 949-951 North Water Street, Decatur, Ill.

<
